

P-COMP-3: H_{xx}^{ZT} and Horn D_x do not vanish together

a Grid A ($A = 0.21$, $D = 0.00705$)

centre $H_{xx}^{ZT} = 0.0141$, Horn $D_x = 0.21$

b Grid B ($A = 0.07$, $D = 0.03485$)

centre $H_{xx}^{ZT} = 0.0697$, Horn $D_x = 0.07$

H_{xx} : ZT profile curvature. D_x : Horn east-west second-order slope coefficient. Existence witness, not a population claim.
